

2006-2007 Alaska Tier II Permit Hunt Supplement

Apply Online!

Tier II Supplements and Applications are available online at:
www.wildlife.alaska.gov

Under state law, all Alaska residents are eligible for subsistence hunting of game populations where subsistence use occurs.

If the harvestable portion of a game population is not sufficient to provide a reasonable opportunity for all subsistence uses, the Board of Game shall distinguish among subsistence users, through limitations based on:

- The customary and direct dependence on the game population by the subsistence user for human consumption as a mainstay of livelihood, and;
- The ability of the subsistence user to obtain food if subsistence use is restricted or eliminated.

NEW! Changes to Proxy Hunting in Tier II Hunts

- You may only proxy hunt for moose in Tier II hunts, or hunts where the legal animal is any bull or antlerless moose.
- For moose and caribou, antler destruction is required for both the hunter's animal and the beneficiary's animal.

In Unit 13, the following additional rules apply:

- You may only proxy hunt TM300 moose and TC566 caribou once per regulatory year.
- Only Tier II caribou permit holders may proxy hunt for Tier II caribou permit holders.

For all other proxy regulations, see the current Alaska Hunting Regulations.

Permit Hunt Conditions

Permits are not transferable to another person.

Permits, valid hunting licenses and, if appropriate, big game locking tags must be in the possession of hunters while hunting. Alaska residents 15 years of age and younger are not required to have a hunting license.

Additional conditions may be listed under the description of each hunt.

Hunter Education Requirements

Hunter Education is required for hunters born AFTER January 1, 1986, and intending to hunt in Units 7, 13-15, and 20. The following apply:

- If you are 16 years old or older, you must have successfully completed a certified Basic Hunter Education course.
- If you are under 16 years old, you must have:
 - a) successfully completed a certified Basic Hunter Education course, OR
 - b) hunt under the direct immediate supervision of a licensed hunter who
 - has successfully completed a certified Basic Hunter Education course OR
 - was born on or before January 1, 1986.

Results of the 2005 Tier II Permit Hunts

The table below contains permit application information on Tier II hunts held last regulatory year. The column titled Percent Awarded gives the percentage of applicants receiving a permit for each hunt.

Hunt Number	Applications Received	Permits Available	Permits Awarded	Percentage Awarded
TC566	6202	4000	4000	65
TG364	41	14	14	34
TG365	39	30	30	77
TM059	220	220	220	100
TM300	1217	150	150	12
TM549	14	4	4	29
TM565	323	140	140	43
TM567	326	60	60	18
TM569	109	60	59	55
TM684	24	14	12	58
TM940	53	75	53	100
TX100	50	3	3	6
TX101	62	5	5	8
TX102	97	38	38	39
TX103	22	13	13	59
TX104	47	62	47	100
TX105	77	21	21	27
TX106	41	8	8	20
TX107	21	6	6	29
TX108	46	9	9	20

Federal subsistence hunts on federal lands are scheduled for a number of locations in the state. Hunters should refer to federal regulations or contact U.S. Fish and Wildlife Service, Anchorage (phone 1-800-478-1456) for information concerning such hunts and who may participate.

Most Common Errors

Last year, 9,560 Tier II permit applications were submitted. Of these, 256 were rejected. The most common errors causing applications to be rejected were:

- failing to sign the application
- failing to report harvest information the prior year
- providing an invalid hunt number
- falsifying an application
- being younger than 12 years old
- application received after the deadline

Other Hunting Opportunities

In addition to Tier II Permit Hunts, there are Registration Permit Hunts where typically an unlimited number of hunters may apply and receive permits but where the season may be closed by Emergency Order if the harvest quota is reached. There are also Drawing Permit Hunts in which only a limited number of people may participate and are chosen by lottery. Information concerning these two types of permit hunts can be found in the Alaska State Hunting Regulations and in the two Drawing Permit Hunt Supplements. In addition to these three types of state permit hunts (Tier II, Registration and Drawing), there are general hunting seasons which do not require a permit, but may require a harvest ticket/report. Refer to the Alaska State Hunting Regulations book for information about such hunts.

Deadline for applications is May 31, 2006

Applications must be **submitted online or mailed** to the address shown on the application form. If you apply by mail, it is your responsibility to make certain the envelope gets postmarked by May 31. Some post offices routinely pouch mail without postmarking it and send it on to a larger distribution center where it is postmarked 24-48 hours later! We suggest you hand-carry your envelope into the post office, ask that it be postmarked, and then look at the postmark to make certain it says May 31 or earlier. Also note that a postmark means a U.S. Postal Service postmark. Postage meter dates do not count. Applications postmarked by May 31 will be accepted until June 10.

MAIL TO: ADF&G Tier II Permit Applications
P.O. Box 228080
Anchorage, AK 99522-8080

Instructions for Applying for Tier II Permit Hunts

(See the back of the Tier II application)

- Only Alaska residents 10 years of age or older (by the starting date of the hunt) may apply for a Tier II permit.
- A hunter may apply for more than one hunt, but must complete a separate Tier II application for each hunt.
- No individual may hold more than one Tier II permit for a species.
- Only one Tier II permit may be issued to a household for moose or muskox, and only three Tier II permits may be issued to a household for caribou.

Numbers 1-11: PRINT CLEARLY

- Social security number (optional)
- Date of birth
- Daytime phone number (optional)
- First name, middle initial, and last name
- Complete mailing address, city, state and zip code
- Physical address (if different from mailing address)
- Community of principal residence

Number 12: Total years Alaska Residency

Number 13: Each Tier II hunt is assigned a hunt number. Check this supplement for the correct number of the hunt for which you are applying, then enter the complete number. If you are applying for more than one Tier II hunt for a species, mark the box indicating if this hunt is your first, second, etc. choice.

Scored Questions 14-18: See the explanation of point scoring listed below. If a question is left blank, you will receive the minimum score for that question. List other members of your household who are also submitting Tier II application(s).

Sign your application.

Any application which is illegible, has incorrect hunt numbers, or has missing required information (including signature) will not be considered. In addition, applications containing false information will be reported to Alaska Bureau of Wildlife Enforcement for investigation.

Point Scoring

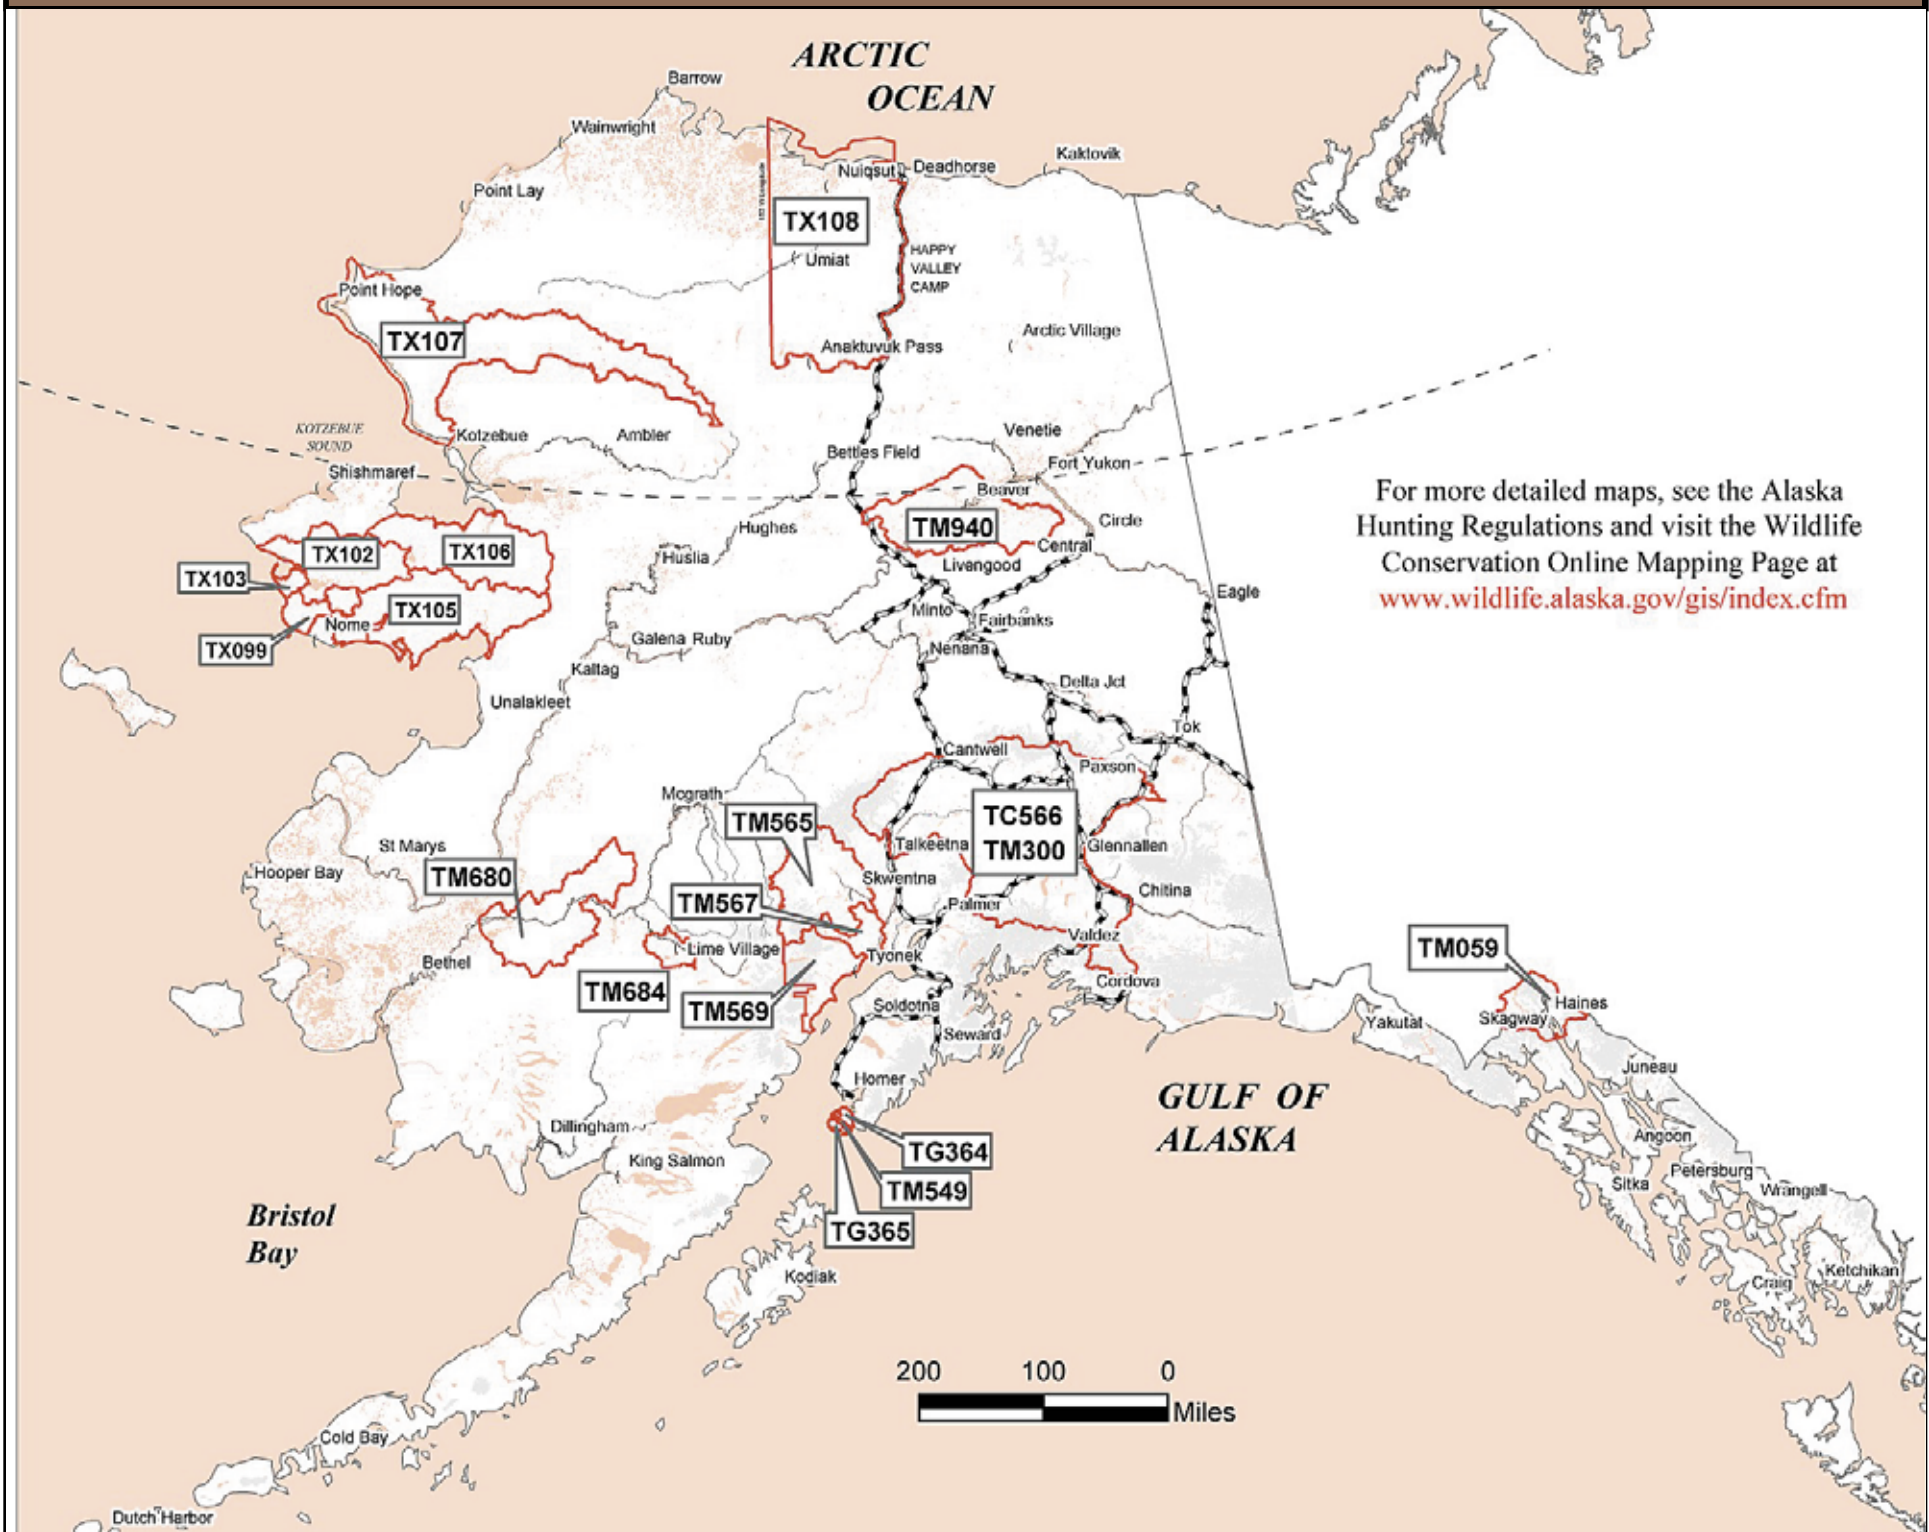

Each Tier II application is scored on the basis of the information provided by the applicant. Answers may be subject to verification. A total of **up to 100 points** is possible.

There are 5 questions (14-18) on the application that are used for scoring:

14. **Up to 50 points** are awarded for the number of years the applicant has hunted or eaten meat from the game population in the hunt area. One point is awarded for each year.
15. **Up to 10 points** are awarded for the number of years any one member of the household has hunted or eaten meat from the game population in the hunt area. One-fifth of a point is awarded for each year.
16. **Up to 20 points** are awarded for the relative availability of alternative sources of big game. This is measured by developing a ratio of the amount of meat harvested from the Tier II population and the total amount of big game meat harvested by all household members over the past 5 years anywhere within the state of Alaska. Points received may not exceed the points calculated by the department for the community nearest the applicant's address.
17. **Up to 10 points** are awarded for the cost of food in the community where most of the applicant's household store-bought food was purchased during the past year. Points received may not exceed the points calculated by the department using the cost-of-food index for the community nearest the applicant's residence.
18. **Up to 10 points** are awarded for the cost of automotive fuel in the community where most of the applicant's household automotive fuel was purchased during the past year. Points received may not exceed the points calculated by the department using the cost of automotive fuel for the community nearest the applicant's residence.

Caribou

*If successful report by mail to Anchorage within 10 days of kill.
If unsuccessful report by mail within 15 days of close of season.
Only three Tier II caribou permits are allowed per household.
Maps of hunt areas: www.wildlife.alaska.gov/gis/index.cfm*

Area/Hunt Number	Number of Permits	Legal Caribou	Season Dates	Hunt Conditions
Unit 13, Nelchina				
TC566	To be announced	Either Sex	Aug. 10-Sept. 20 Oct. 21-Mar. 31	The Nelchina Caribou Herd is within management objectives of 35,000 - 40,000 animals. The number of permits issued will be adjusted based on late winter survival and spring calf production. Bull and cow harvest quotas will be announced. Caribou may not be taken within 1/2 mile of the Parks Highway from Milepost 208 to 212 nor within 1/2 mile of the Denali Highway from Milepost 128 to 135.
See changes to proxy hunting on the front page of this supplement.				

Mt. Goat

*If successful report by phone or mail to Homer, Soldotna, Anchorage or Palmer within 10 days of kill.
If unsuccessful report by mail within 15 days of close of season.
Maps of hunt areas: www.wildlife.alaska.gov/gis/index.cfm*

Area/Hunt Number	Number of Permits	Legal Goat	Season Dates	Hunt Conditions
Unit 15				
TG364, Seldovia	14	Either Sex (The taking of nannies with kids is prohibited.)	Aug. 1-Oct. 15	Most mountain goats are accessed by private land where access fees may be charged by the land owner. Some areas may be closed to nonshareholders.
TG365, English Bay	30			

Moose

*If unsuccessful report by mail within 15 days of close of season.
See changes to proxy hunting on the front page of this supplement.
Only one Tier II moose permit is allowed per household.
Maps of hunt areas: www.wildlife.alaska.gov/gis/index.cfm*

Area/Hunt Number	Number of Permits	Legal Moose	Season Dates	Hunt Conditions
Unit 1D, Upper Lynn Canal				
TM059	220	Bull with spike-fork or 50-inch antlers or antlers with 3 or more brow tines on at least one side	Sept. 15-Sept. 30	If successful report in person in Haines with lower front jaw and antlers for measuring within 3 days of kill. 
Unit 13, Copper River				
TM300	150	Bull	Aug. 15-Aug. 31	If successful report in person to Glennallen, Palmer, or Anchorage ADF&G within 10 days of the kill, with lower front jaw and antlers for measuring. See changes to proxy hunting on the front page of this supplement.
Unit 15C, Southwest of Pt. Pogibshi, that portion of Unit 15C southwest of a line from Point Pogibshi to the point of land between Rocky Bay and Windy Bay.				
TM549	4	Bull	Aug. 20-Sept. 20	If successful report by mail to Anchorage within 10 days of the kill.
Unit 16B, Yentna, that portion north and west of the 16B North Beluga hunt area (TM567).				
TM565	120	Bull with spike-fork or 50-inch antlers or antlers with 3 or more brow tines on at least one side	Sept. 1-Sept. 20	If successful report by phone (746-6339) or mail to Anchorage or Palmer within 5 days of kill; if Unit 16B resident, report by mail only within 15 days of kill. If antlers are removed or exported from Unit 16B, they must be brought to one of the above ADF&G offices where a department representative will destroy the trophy value.
		Bull	Nov. 15-Feb. 28	
Unit 16B, North Beluga, that portion draining into Susitna River south of the big bend of the Lower Yentna River (approximately river mile 23) and into Cook Inlet north of the Beluga River including all drainages into the north side of Beluga River and Beluga Lake.				
TM567	140	Bull with spike-fork or 50-inch antlers or antlers with 3 or more brow tines on at least one side	Sept. 1-Sept. 20	If successful report by phone (746-6339) or mail to Anchorage or Palmer within 5 days of kill; if Unit 16B resident, report by mail only within 15 days of kill. If antlers are removed or exported from Unit 16B, they must be brought to one of the above ADF&G offices where a department representative will destroy the trophy value.
		Bull	Nov. 15-Feb. 28	
Unit 16B, South Beluga, mainland drainages south and west of the Beluga River, Beluga Lake, and Triumvirate Glacier.				
TM569	100	Bull with spike-fork or 50-inch antlers or antlers with 3 or more brow tines on at least one side	Sept. 1-Sept. 20	If successful report by phone (746-6339) or mail to Anchorage or Palmer within 5 days of kill; if Unit 16B resident, report by mail only within 15 days of kill. If antlers are removed or exported from Unit 16B, they must be brought to one of the above ADF&G offices where a department representative will destroy the trophy value.
		Bull	Nov. 15-Feb. 28	
Unit 19A, Lime Village Management Area, that portion drained by the Stony River from the mouth of the Stink River, including the Stink River drainage, upstream to, but not including, the Can Creek drainages.				
TM684	14	2 Bulls	Aug. 10-Sept. 25 Nov. 20-Mar. 31	If successful report by mail within 5 days of the close of the season.
Unit 19A, that portion of the Kuskokwim River drainage downstream from, and including, the George River drainage, and downstream of, and excluding, the Downey Creek drainage.				
TM680 NEW!	to be announced	1 Antlered Bull	Sept. 1-Sept. 20	All permit recipients must report by mail to Fairbanks within 10 days of close of season. Contact ADF&G in McGrath (524-3323) for assistance.
Unit 25D, Western Yukon Flats, that portion west of a line extending from the Unit 25D boundary on Preacher Creek, then downstream along Preacher Creek, Birch Creek and Lower Mouth Birch Creek to the Yukon River, then downstream along the north bank of the Yukon River (including islands) to the confluence of the Hadweenzic River, then upstream along the west bank of the Hadweenzic River to the confluence of Forty and One-Half Mile Creek, then up stream along Forty and One-Half Mile Creek to Nelson Mountain on the Unit 25D boundary. NOTE: Under Federal subsistence hunting regulations, federal public lands within Unit 25D West are closed to moose hunting except by residents of Beaver, Stevens Village, and Birch Creek. Except for navigable waters, most of the remaining lands are privately owned.				
TM940	75	Bull	Aug. 25-Feb. 28	If successful report in person or by mail to Fairbanks within 10 days of the kill. Reports can also be returned to Community Natural Resource Offices in Beaver, Birch Creek, Stevens Village, or Fort Yukon, to be forwarded to ADF&G, Fairbanks.

Frequently Asked Questions

- 1. Do only Alaska residents qualify to apply for Tier II subsistence permits?** Yes. Only Alaska residents qualify for Tier II permits. A resident for Tier II means a person who has continually maintained his or her permanent home in Alaska for 365 days preceding the start of the Tier II hunt of interest. Members of the military services and their dependents who have been stationed in the state for the preceding 12 consecutive months are also residents for Tier II purposes.

2. How is it determined who gets the Tier II permits? Each application is scored on 5 questions. Permits for a specific hunt are issued starting at the highest overall score and working downward until all permits are issued.

3. Will the information I give be verified? Yes. Any application which appears to include false information will be investigated. Applications shown to include false information will be submitted to the Alaska Bureau of Wildlife Enforcement for citation and prosecution.

4. How many Tier II permits may an individual be awarded? Only one Tier II permit per species may be awarded. Therefore, it is important that those applying for more than one hunt for the same species identify whether a hunt is their first, second, third, etc. choice for that species. If more individuals in a household are eligible for permits based on their score than can be allowed, the highest scoring individual(s) in the household will be awarded permit(s). When more than one household member applies for Tier II hunts, household applicants must be listed on each application. If you are awarded caribou or moose permits, you may register a proxy hunter to hunt for you if you are blind, 70% physically disabled or over 65 years of age. See proxy changes on the front page of this supplement.
- 5. Can I have both a drawing permit and a Tier II permit for the same species?** Yes. A person can be selected for a drawing permit and also be awarded a Tier II permit for the same species. However an individuals bag limit does not increase. Upon harvesting an animal under one permit, the other permit automatically becomes invalid. The drawing and Tier II permit systems are separate processes and your application for receiving a permit in one system does not affect your opportunity to apply or receive a permit in the other.

6. Is there any difference in my chances of receiving a permit for my first choice hunt as opposed to my second or third choices? No. Each hunt is scored independently. If you qualify for more than one permit for a given species, you will receive the permit for the hunt which you indicated was your highest preference. If you do not identify a preference, you will receive a permit for the hunt in which you receive the highest score

7. If I qualify for a permit for one species, does that effect my opportunity to receive a permit for another species? No. Each hunt is scored independently. Your potential to qualify for a permit is dependent upon your score in relation to the scores of other applicants for the same hunt.

8. I can't remember how many years I hunted or applied for a permit hunt in order to fill out question 14. Can I ask Fish and Game for a listing of my hunting history? With exceptions (see below), the Department is not prepared to search its records and assist applicants on their past hunting and application history. Answer the question to the best of your knowledge. Department staff will photocopy last year's Tier II applications. Please direct requests for copies to: Tier II copies, ADF&G, 333 Raspberry Rd., Anchorage, AK 99518. Requests for copies must be in writing, and must be accompanied by check or money order for \$5 for each application.

Muskox

Question 16a and 16b on the Tier II Application will not be scored for muskox hunts in Units 22 and 23.
Only one Tier II muskox permit per household.
Maps of hunt areas: www.wildlife.alaska.gov/gis/index.cfm

- The following applies to all muskox hunts:
- Hunters must possess a valid hunting license prior to hunting, and all hunters are required to return their hunt report.
 - The resident big game tag fee is waived for subsistence hunting; however, a tag is required and must be attached to the muskox immediately after it is taken.
 - Successful applicants will be contacted by ADF&G with further instructions and information.
 - ADF&G will destroy the trophy value of horns and/or skull removed or exported from the Game Management Unit in which it was taken.
 - You may NOT use aircraft to transport muskox hunters, muskox, or muskox hunting gear.
 - Successful hunters are required to report in person or by telephone, within three days of harvesting a muskox (except TX108).
 - If unsuccessful, report by telephone or mail within 15 days of close of season.

Area Hunt Number	Number of Permits	Legal Muskox	Season Dates	Hunt Conditions
Unit 22B				
TX105, Residents Only	24	Bull	Aug. 1-Mar. 15, Remainder of Unit 22B	Season will be closed when the combined federal and state harvest reaches the harvest quota of 16 bulls. Trophy destruction required if removed or exported from Unit 22. This hunt is conducted in combination with a federal subsistence hunt for federally qualified subsistence users on federal public land. Toll free in Alaska: Nome 1-800-560-2271 or Kotzebue 1-800-478-3420.
			Nov. 1-Mar. 15, within the Fox River drainage upstream of the Fox River bridge, or within one mile of the Council Road east of the Fox River bridge	
Unit 22C, excluding the eastern portion of the Penny River drainage (east of the east bank), the Snake River drainage, the portion of the Nome River drainage downstream from and including Hobson Creek drainage and Rocky Mountain Creek drainage, and the western portion of the Flambeau River drainage (west of the west bank) extending along Safety Sound to Safety Bridge, and all additional drainages flowing to Norton Sound between Safety Bridge and the mouth of the Penny River				
TX099, Residents Only	22	Bull	Jan. 1 - Mar. 15	Season will be closed when the combined federal and state harvest reaches the harvest quota of 18 bulls. Trophy destruction required if removed or exported from Unit 22. Toll free in Alaska: Nome 1-800-560-2271 or Kotzebue 1-800-478-3420.
Unit 22D Southwest, west of the Tisuk River drainage, west of the west bank of the unnamed creek originating at the unit boundary opposite the headwaters of McAdam's Creek and west of the west bank of Canyon Creek to its confluence with Tuksuk Channel				
TX103, Residents Only	21	Bull	Sept. 1 - Mar. 15	When the quota of 6 cows is reached, permit holders will be notified that only bulls may be taken. Season will be closed when the combined federal and state harvest reaches the harvest quota of 13 muskox. Trophy destruction required if removed or exported from Unit 22. Toll free in Alaska: Nome 1-800-560-2271 or Kotzebue 1-800-478-3420.
		Any Muskox	Jan. 1 - Mar. 15	
Remainder of Unit 22D				
TX102, Residents Only	45	Bull	Aug. 1 - Mar. 15, not including the Pilgrim River drainage Nov 1 – Mar 15, within the Pilgrim River drainage	When the quota of 13 cows is reached, permit holders will be notified that only bulls may be taken. Season will be closed when the combined federal and state harvest reaches the harvest quota of 32 muskox. Trophy destruction required if removed or exported from Unit 22. This hunt is conducted in combination with a federal subsistence hunt for federally qualified subsistence users on federal public land. Toll free in Alaska: Nome 1-800-560-2271 or Kotzebue 1-800-478-3420.
		Any Muskox	Jan. 1 - Mar. 15	
Unit 23 Southwest, the Seward Peninsula west of and including the Buckland River drainage				
TX106, Residents Only	13	Bull	Aug. 1 - Mar. 15	When the quota of 7 cows is reached, permit holders will be notified that only bulls may be taken. Season will be closed when the combined federal and state harvest reaches the harvest quota of 15 muskox. Lower front teeth  may be requested but not required for this hunt. The department or department representative will destroy the trophy value of horns and/or skull, if removed or exported from Unit 23. Aircraft may NOT be used to transport muskox hunters, muskox, or muskox hunting gear. This hunt is conducted in combination with a federal subsistence hunt for federally qualified subsistence users on federal public land. Toll free in Alaska: Nome 1-800-560-2271 or Kotzebue 1-800-478-3420.
		Any Muskox	Jan. 1 - Mar. 15	
Unit 23 Northwest, north and west of the Noatak River				
TX107, Residents Only	6	Bull	Aug. 1 - Mar. 15	Lower front teeth  may be requested but not required for this hunt. The department or department representative will destroy the trophy value of horns and/or skull, if removed or exported from Unit 23. Aircraft may NOT be used to transport muskox hunters, muskox, or muskox hunting gear. Toll free in Alaska: Nome 1-800-560-2271 or Kotzebue 1-800-478-3420.
Unit 26A, east of 153° W. Longitude and Unit 26B, west of the Dalton Highway				
TX108, Residents Only	6	Any Muskox	Aug. 1 - Mar. 31	Lower front teeth  may be requested but not required for this hunt. The department or department representative will destroy the trophy value of horns and/or skull, if removed or exported from Unit 26.

Restricted Areas

Dalton Highway Corridor Management Area (DHCMA) - Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway, including the driveable surface of the Dalton Highway, from the Yukon River to the Arctic Ocean, and including the Prudhoe Bay Closed Area. The area within the Prudhoe Bay Closed Area is closed to the taking of big game; the remainder of the Dalton Highway Corridor Management Area is closed to hunting; however, **big game, small game, and fur animals may be taken in the area by bow and arrow only**; no motorized vehicle may be used to transport hunters, their gear, or parts of game within the Dalton Highway Corridor Management Area except aircraft, boats, and licensed highway vehicles on the following designated roads: 1) Dalton Highway; 2) Bettles Winter Trail during periods when BLM and the City of Bettles announce that the trail is open to winter travel; 3) Galbraith Lake road from the Dalton Highway to the BLM campground at Galbraith Lake, including the gravel pit access road when the gate is open; 4) Toolik Lake Road, excluding the driveway to the Toolik Lake Research Facility; 5) The Sagavanirktok River access road two miles north of Pump Station 2; 6) any constructed roadway or gravel pit within 1/4 mile of the Dalton Highway. However, a snowmachine may be used to transport hunters, their hunting gear, or parts of game across the management area from land outside the management area to access land on the other side of the management area. Any hunter traveling on the Dalton Highway must stop at any check station operated by the department within the Dalton Highway Corridor Management Area.

Appeals Process

Anyone may appeal a Tier II permit allocation decision or score to the Permit Hunt Administrator **within 20 days** of the public release of the list of names of those awarded Tier II permits. Appeals must be in writing or by telephone; if in writing it must be postmarked or hand delivered to 333 Raspberry Rd., Anchorage, within the 20-day appeal period; if by telephone it must also be made within the 20-day appeal period. Telephone appeals will be recorded. A department form, available at most ADF&G offices, may be used, but is not required. The department will provide a decision on the appeal by first class mail within 7 days of appeal receipt. A person aggrieved by a decision under this appeal system may appeal to the ADF&G Commissioner within 7 days of the mailing of a decision by the Permit Administrator. The Department of Fish and Game may change a Tier II permit allocation decision or score in case of an ADF&G scoring error or based on evidence that information on an application is false.

Under 5 AAC 92.050, applications that are incomplete or contain false statements are void. Therefore, appeals asking to insert missing information or a signature, or asking to change answers to questions will be denied. Submit appeal to: Permit Hunt Administrator, ADF&G, Division of Wildlife Conservation, 333 Raspberry Rd, Anchorage, AK 99518-1599 Phone: (907) 267-2246.
